SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS

Frameworks & Libraries: React (React Router, Redux, XState), Next.js, Node.js, Express, Axios, GraphQL

Styling & Design: Tailwind CSS, Bootstrap 5, SASS, Figma

Data & Visualization: MongoDB, PostgreSQL, ECharts

Tools & Best Practices: Git, GitHub, npm, pnpm, Vercel, Vite, ESLint, Prettier, performance optimization, code quality, DRY extraction, readable code, Accessibility (WCAG 2), Generative AI workflows (LLM usage, prompt design, API integration)

EXPERIENCE

November 2025 - January 2026

Frontend Developer Intern, Fieldstream AI

- Built interactive data visualizations for historical ad investment performance and AI-based forecasts of future investments.
- Refactored and optimized legacy components, improving performance and enabling greater reuse of shared hooks and UI components.
- Delivered customer-specific and time-critical features, including extended form workflows for AI-generated investment plans and exporting chart data to Excel.
- Worked closely with AI-driven forecasting features and gained practical understanding of generative AI workflows and data-driven prediction systems.

November 2023 – April 2024

Frontend Developer Inter, Betmarket Sweden

- Designed and implemented user-friendly, responsive interfaces, creating wireframes in Figma and translating them into production-ready UI.
- Enhanced user experience through CSS animations and responsive design across devices.
- Built and integrated a REST API using Node.js and Express to fetch live jackpot data, connected to the frontend via Axios.

September 2020 – July 2022

Store Employee, Willy's / Lidl

- Delivered high-quality customer service in fast-paced retail environments, focusing on clear communication and customer satisfaction.
- Handled daily store operations including stocking, cashier duties, and maintaining an organized, customer-friendly store layout.
- Collaborated closely with team members to ensure efficient workflows, reliability, and a positive customer experience.

EDUCATION

May 2025 - October 2025

Frontend Developer, Lexicon IT

- Completed a hands-on frontend development program covering the full development lifecycle, from semantic HTML and responsive CSS to advanced React applications.
- Gained practical experience with modern JavaScript (ES6+), DOM manipulation, state management, routing, and SPA development using React.
- Worked in agile team environments using Git/GitHub and Scrum-based workflows.

August 2022 - June 2024

Frontend Developer, KYH

- Completed a two-year intensive frontend development program focused on building modern, user-friendly web applications.
- Developed strong skills in HTML, CSS, JavaScript, TypeScript, React, API integrations, and responsive design through project-based learning.
- Applied agile development practices and version control to collaborate effectively in team-based projects.
